

3 Access

System Architecture Overview

TOTAL FACILITY CONTROL

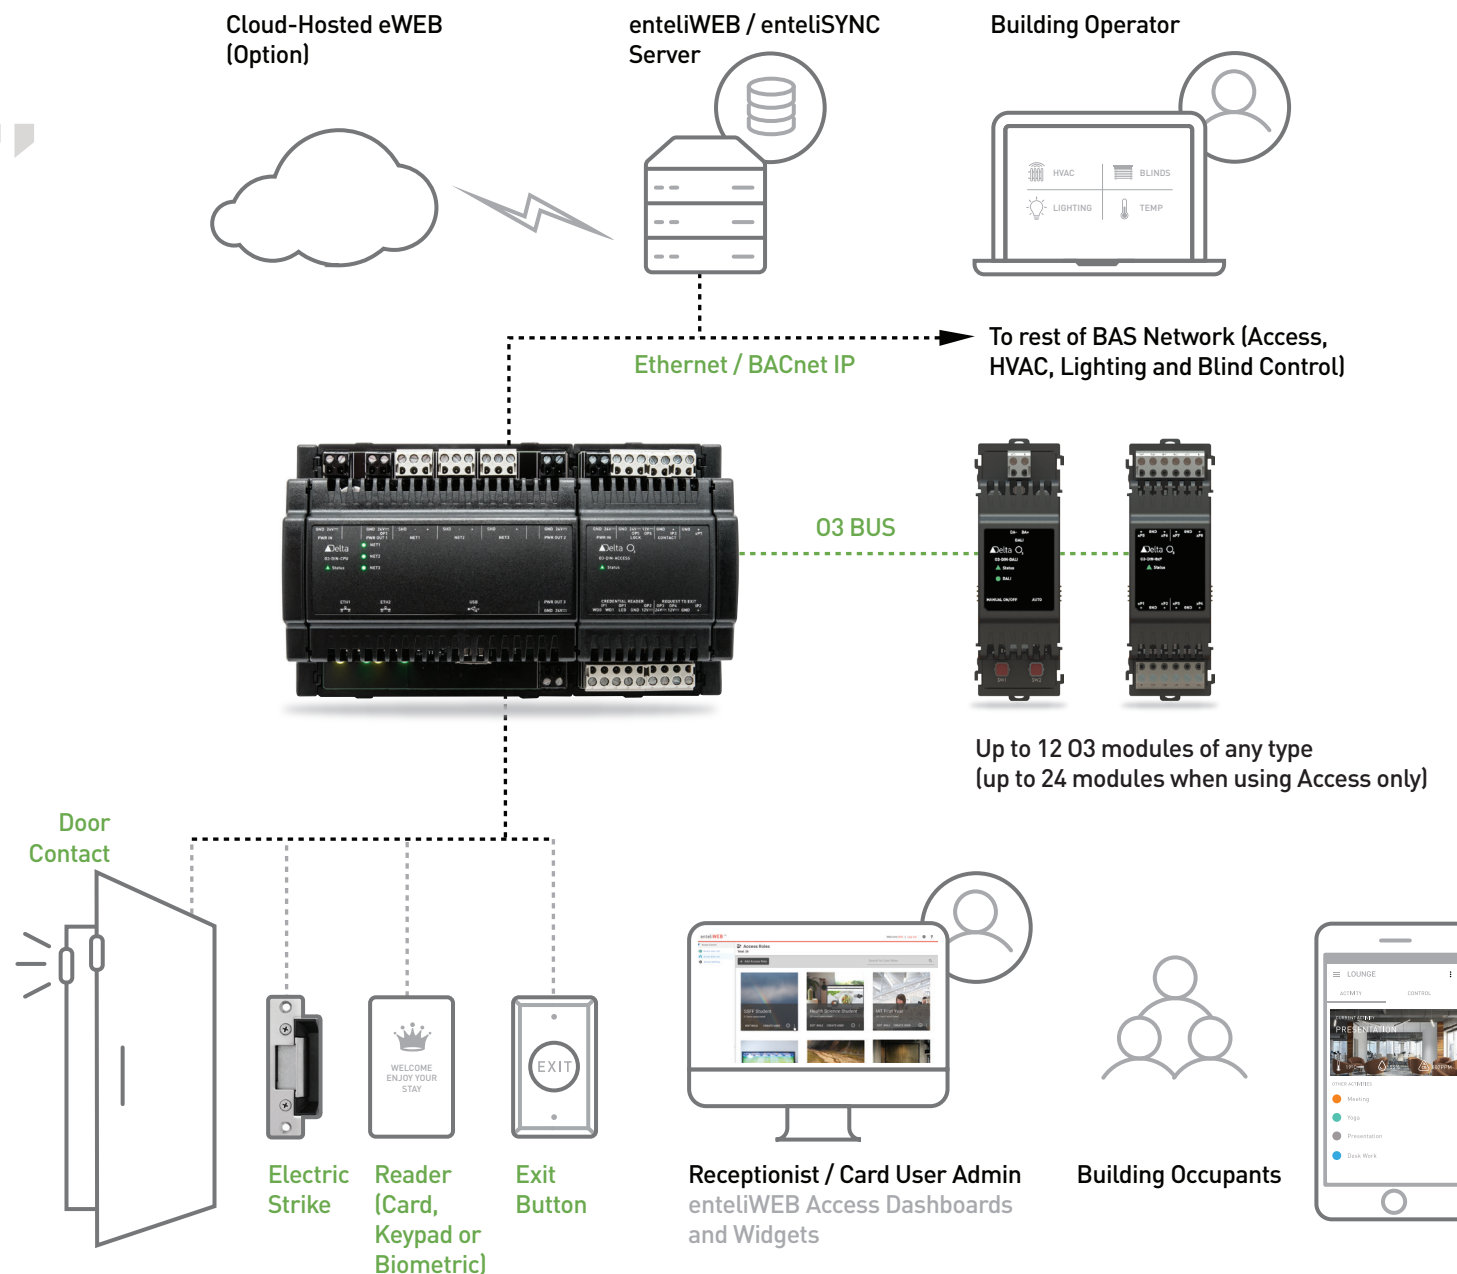

Access integrated with HVAC, lighting, automated blinds.

With the O3 system, you can control access to the space, integrate HVAC and blind control, all from one device. ”

▶ CONTROLLER

- Compact snap-in DIN rail module — great for retrofits
- Useable with other O3 modules to integrate lighting, HVAC, and field devices
- Multi-format Wiegand reader support from a single input (up to 200 bits)
- Uses standard BACnet access objects to increase interoperability with other systems
- 24V and 12V power output options operate a wide variety of door peripherals without the need for an additional power supply
- Universal control points — software select between inputs and outputs
- Power supplied by PoE or standard power supply
- Expandable up to 24 access modules
- Space for up to 100,000 users

Centralized access control and building management operations in a single web-based application. ”

▶ SOFTWARE

- enteliWEB provides single-seat management for access, lighting and HVAC
- enteliSYNC provides GDPR compliant user synchronization
- Intuitive user enrollment dashboards
- Virtual enrollment reader
- Customizable extended access user information
- Role-based permissions for individual users
- Visualizations via widgets and graphics that report live data
- Customizable access activity reporting
